

LR-FB1010C 100x100cm Fire Blanket

with Soft Bag

Fast First-Response Fire Control

Designed for immediate intervention, the LR-FB1010C allows users to suppress small fires before they escalate. Simply placing the blanket over the flame source helps isolate oxygen and reduce heat rapidly, limiting damage and risk.

Safe, Non-Hazardous Construction

The blanket is produced from asbestos-free fiberglass fabric that is flame-retardant and thermally insulating. This ensures safe use in domestic and commercial spaces without releasing harmful materials during exposure to heat.

Portable and Easy to Access

Supplied in a bright red soft storage bag, the LR-FB1010C is quick to locate in emergencies and simple to mount or store. The pull-strap design enables rapid deployment even under stressful conditions.

Product Overview

The LOREX LR-FB1010C Fire Blanket is a compact and highly effective first-response fire safety solution designed to control small fires at their earliest stage. With its 100 x 100 cm fiberglass construction, this model allows users to smother flames quickly by cutting off oxygen—making it ideal for pan fires, small electrical incidents and clothing fires. Supplied in a highly visible red soft carry bag, the blanket is easy to access during emergencies and can be deployed by untrained users within seconds. Manufactured from non-asbestos, flame-retardant fiberglass fabric, the LR-FB1010C withstands temperatures up to 550 °C, providing dependable thermal protection in homes, offices, cafés, mobile living spaces and small commercial environments. Its stitched edges, dual pull straps and compact storage dimensions ensure both durability and ease of handling, making it a practical everyday safety product wherever fire risk exists.

LR-FB1010C
100x100cm Fire Blanket
with Soft Bag

Parameter	Specification
Model Code	LR-FB1010C
Product Description	Fire Blanket with Soft Bag
EAN	8697806160094
Dimensions	100 × 100 cm
Fabric Weight	420 g/m²
Thickness	0.4 mm
Maximum Temperature Resistance	550 °C
Material	Flame-retardant fiberglass fabric
Standards Compliance	EN 1869:1997
Blanket Colour	White
Pull Straps	2 pcs
Bag Colour	Red
Bag Type	Soft textile bag
Bag Dimensions	23.5cm × 16cm × 3.5 cm
Total Weight	0.47 kg
